Subject: Dimock Equipment Request

Rich,
I am trying to ensure we have all the proper equipment to perform the sampling event at the Dimock Site. There are a couple pieces of equipment that I believe EPA has and if we could use them it would ultimately save EPA from paying for the rental costs. Would you be able to check and see if EPA could provide 2 Multi-Rae units, an FID unit, and a Trimble GPS unit. I believe all the OSCs have Multi-Raes but the FID and Trimble GPS unit may have to be procured from the Equipment Warehouse. Please let me know if you can provide these for the week of Jan 3. If you would prefer I rent the equipment, please also let me know.
Thanks,

Suddha Graves
